YOUR
WEDDING

With Custom Gobos from Apollo

Lighting can completely transform your venue from ordinary to spectacular. It has a powerful impact on the overall feel of your wedding and the mood of your guests.

Make the entire venue a canvas that reflects your décor. Project patterns and color on the wall, floor and ceiling with patterns from our wedding collection to make certain areas of the room focal points. A custom gobo that projects your name or monogram on the dance floor or the wall behind the head table creates an impressive effect that will look amazing in your wedding photos.

To create a wedding gobo, choose a design and font from our collection. We can also create a one-of-a-kind gobo using your engagement photo, invitation, or your own artwork.

Gobos are a cost effective way to transform your wedding venue and wow your guests. Put your name in lights with a custom gobo from Apollo.

1 In order to project your gobo design, you will need a gobo projector / lighting fixture. There are hundreds of different lighting fixtures. The size of a gobo is dependent on the lighting fixture being used. Typically, venue, event coordinator, DJ or lighting designer provide the lighting fixtures. Ask them to provide the name and model of the fixture.
